~Christmas Gnome~

Free Applique Template

US letter Print Guide and Pattern

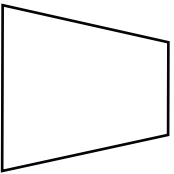

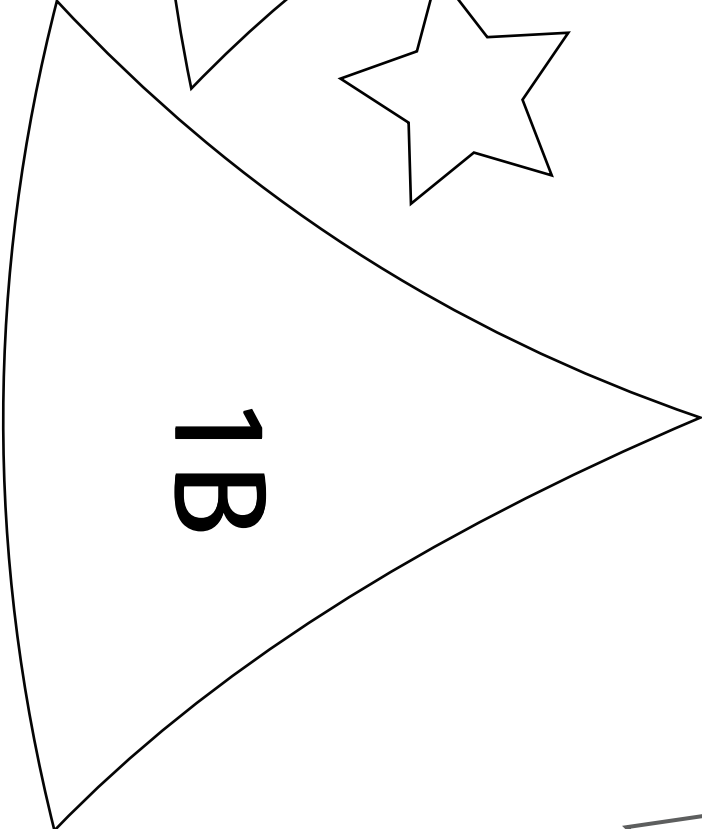

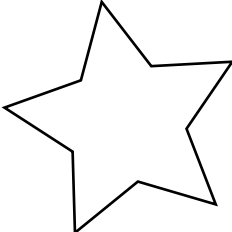

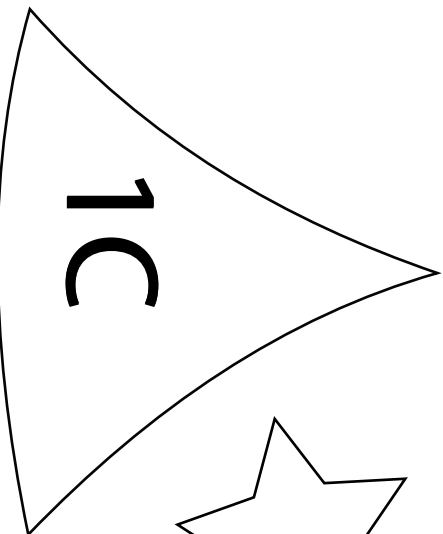

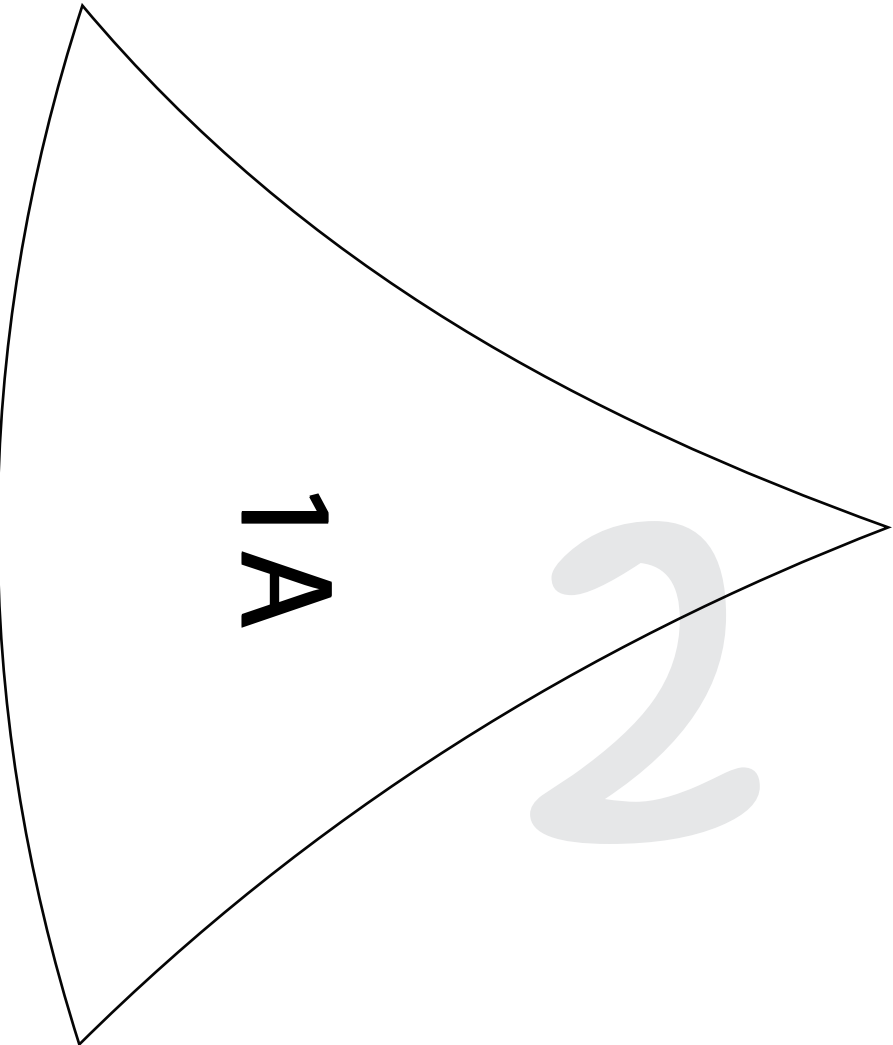

The numbers on the template pieces are corresponding to their size and fit for their accessories. You can print these template pieces without the numbers by turning off the "Label" layer. This template file includes four sizes of gnomes and accessory and is great for creating on adult or kid size clothing. I have also included a few oversized accessories to spark some new creativity and help you create your own Christmas Gnome Forest applique.
